Subject: RE: Avery Landing Site - EPA Order to Potlatch Companies

Thanks Richard. I haven't been able to confirm whether the Potlatch team would be available for a conference call tomorrow(Friday) to discuss the referenced order. I am skeptical even if I let you know by tonight or tomorrow morning about a call tomorrow, that you would be able to corral the EPA team together in time. Thus I would like to formally request a short extension under the Order to confer with EPA. As I indicated the Potlatch team is available most of April 16 or 17 to have a call. The issues that we would like to discuss are relatively discrete and are focused on items in the Order under Paragraph VI and the Financial Assurance Requirements under Paragraph XV. They are as follows:

1. Scope of obligation for the project manager to be on Site at all times under Paragraph VII.A.3.
2. Scope of the HASP under Paragraph VII.E.1.
3. Scope of notice requirement for sampling under Paragraph VII.E.5.
4. Clarification on financial assurance requirements under Paragraph XV.
5. Best way to handle early submission of plans to EPA prior to Effective Date of UAO.

I will leave it up to you whether you believe it is necessary to include some or all of Earl's supervisors in this discussion. If I can find an available time for tomorrow I will let you know ASAP. Thanks.

Regards,
Kevin Beaton

Subject: RE: Avery Landing Site - EPA Order to Potlatch Companies

Hi Kevin –

I will look into arranging a conference call that would work for EPA within the day and time parameters you have presented. I will initially include Earl Liverman and his 3 supervisors up through the Division Director – but please inform if the Potlatch companies are interested in having something less than this entire group of EPA officials. I will also participate in the call.

It also appears to me as though a call on either the 16th or 17th is past the opportunity to confer date provided under the Order. This means that either we can arrange for the call to be held on or before the 15th (which would be the last day allowed for a conference under the terms of the Order) or Potlatch can request an extra day or two and I can present this request to EPA officials and see what happens. Please let me know the preference.

Once you are able to send me the list of issues, I will pass it along to others at EPA.

Thank you,

Richard

Richard:

I just got off the phone with the Potlatch team. We still think it would be a good idea to have a conference call to discuss a few items concerning the work in the UAO. I would not imagine it will take more than 1 hour. The best dates for us would be on April 16 or 17th. (The only time that absolutely doesn't work for me on those two days would be between 2:45-4:30 (Pacific) on April 16). I will shoot you a list of the issues we would like to discuss in a separate e-mail. Thanks.

Hi Kevin –

Thank you for your message. I had been told that you might be around here on Thursday so with better planning I could have been ready with the documents when you stepped out of the elevator, but you also seemed like you already had your hands full on another matter and with an elevator load of people. I will let others here know about the interest in having a conference and will otherwise wait to hear back from you about times, dates and issues.

Best regards,

Richard

Richard:

It was nice seeing you last week in Seattle briefly when I was getting off the elevator. I suppose you could have literally hand-delivered the UAO to me. In any event Potlatch would like the opportunity to confer with EPA representatives before the UAO goes into effect as provided by Paragraph XVII of the UAO. We believe the conference can likely occur via conference call. Given the close coordination between EPA and representatives of Potlatch over the past few months regarding expected cleanup work in 2013 we are hopeful that the conference will not take a significant amount of time. I will be able to provide you some available times and subject(s) we wish to discuss at the conference after conferring with Potlatch representatives on Wednesday afternoon. In the meantime let me know if you have any questions.

Regards,

Kevin Beaton

Subject: Avery Landing Site - EPA Order to Potlatch Companies

Hi Kevin and Lorrie –

I am attaching an administrative order and the accompanying cover letter issued today by Region 10 of EPA to three Potlatch companies.

I would be glad to discuss this matter with you at your convenience.

Best regards,

Richard
